AI VS. SW DEVELOPMENT

• 94%

• 74,5%

• 33%

AI VS. SW DEVELOPMENT

- Il valore non sarà (è ?) più "scrivere codice", ma gestire sistemi di agenti.
- La qualità dipende dalla supervisione umana, non dalla quantità di codice prodotto.
- I team diventano ibridi: persone + agenti specializzati.

There's something about Martin

```
private async Task<IList<TranscriptChunk>> BuildTokenizedChunks(Content content, WhisperTranscript transcript)
{
    var maxThreads = Convert.ToInt32(Environment.ProcessorCount * 0.9);
    var chunks = await GetChunks();
    var semaphore = new SemaphoreSlim(maxThreads);
    var tasks = new List<Task>();
    foreach (var chunk in chunks)
    {
        await semaphore.WaitAsync();
        var task = Task.Run(async () =>
        {
            try
            {
                chunk.Embeddings = await embeddingGenerator.GenerateVectorAsync(chunk.Text);
                chunk.Topics = () => {
                    var result = await textAnalyticsClient.ExtractKeyPhrasesAsync(text);
                    return[.. result.Value];
                };
            }
            finally
            {
                semaphore.Release();
            }
        });
        tasks.Add(task);
    }
    await Task.WhenAll(tasks);

    return chunks.Where(c => c.Embeddings != null).ToList();
}
```

>> AI CONF 2026

- 24 giugno 2026 @ Talent Garden Calabiana, Milano
- 7° edizione (<https://aiconf.it>)
- 4 track (AI Tech, Data Science, Executive, Use case)

Alessandra Fidanzi
Head of Data, AI
ENI

Giulia Gasparini
Country Manager
Amazon Web Services

Marco Bani
Resp. Affari Istituzionali
Senato

Silvia Gabrielli
CIO
