

# WEB DAY

27 MARZO 2024

7A EDIZIONE

**CIAO!**

**ANDREA SALTARELLO**

Founder @ Improove

Adjunct professor @ Politecnico di Milano

**35 anni fa, in una galassia lontana lontana...**

**Io ero lì, Gandalf**

...Quando Microsoft inventò i CSS introducendoli in IE 3.0, ed io continuavo a definire il layout con le table. ✘

...Quando l'acronimo SSR ancora non esisteva, perché tanto tutto ciò che avevi erano ASP, CGI e PHP. Ed io scelsi ASP. ✘

...Quando credetti che le applet Java avrebbero salvato il mondo, e non ebbi mai la gioia di avere una JVM per Amiga dovendo abbandonarla per passare ad un PC (e non è che le applet abbiano fatto una fine migliore). ✘

...Quando per evitare JavaScript mi illusi che ActiveX potesse essere una soluzione. ✘

...Quando "ActiveX no", ma tutti sul carro Macromedia e vai di ActionScript e Flash, ma poi Steve vedendo HTML5 si trasformò nel Mandaloriano perché *"Questa, è la via"* ✘

```
<style type="text/javascript">
with (tags.H3) {
    color = "green";
}
with (tags.H2) {
    color = "red";
    fontSize = "16pt";
    marginTop = "4cm";
}
</style>
```

```

# Improve: non solo eventi

The screenshot shows the 'improve BETA' website interface. The top navigation bar includes 'Scopri', 'Eventi', 'Formazione', 'Mentorship', and 'Video'. A user profile 'Bentornato/a' is visible in the top right. The main heading is 'Ricerca video'. Below it, a search bar contains 'Ricerca video' and a magnifying glass icon. A dropdown menu for 'Categoria' is open, showing '409 video'. The search results list several videos, each with a thumbnail, title, author, and date. The first video is 'AI Generativa con Google: un esempio reale' by Domenico Irilli, dated 30 Jan 2024. The second is 'EU AI Act: è possibile regolamentare l'utilizzo dell'AI?' by Andrea Palumbo, also dated 30 Jan 2024. The third is 'Full-stack LLM' by Alessandro Vitale, dated 30 Jan 2024. The fourth is 'Generative AI: understand, use and build innovation' by Vezenia Ekonomi, dated 30 Jan 2024. The fifth is 'GPT 4 turbo vision: introduzione al modello e alle sue applicazioni' by Valentina Alto, dated 30 Jan 2024. On the right side, there are filter sections for 'Lingua' (Inglese, Italiano) and 'Audience' (Architect, CTO, Data Scientist, DBA, Developer). There are also 'Mostra di più' links for the filters. At the bottom, a pagination bar shows 'Pagina 1 di 82' and navigation arrows.

# Tech TV

Martedì: DevOps/a11y

Mercoledì: Cloud Champions 

Giovedì: Small Talks 

Venerdì: Spike Time

# Formazione & mentorship

**Alex Casalboni**

## Mentorship

- Da Dev a DevRel

**Alfredo Morresi**

## Mentorship

- Community Management
- Design your life
- Developer Relations

**Andrea Saltarello**

## Mentorship

- Community management
- Da tecnico ad imprenditore

**Barbara Tulissi**

## Mentorship

- Personal Brand per Developer

**Davide Mauri**

## Mentorship

- Da Dev a Product Manager

**Gian Maria Ricci**

## Mentorship

- Improve Git

**Lorenzo Barbieri**

## Mentorship

- Diversity & Inclusion in Tech: come dare e richiedere supporto
- Migliora le tue presentazioni con il geniodelmale
- Ottieni il lavoro dei tuoi sogni!

**Luca Bianchi**

## Mentorship

- Da Dev a CTO
- Improve your serverless on AWS
- Let's Architect
- Public speaking

**Luca Mezzalira**

## Mentorship

- Speak with confidence: elevate your public speaking skills

**Mauro Servienti**

## Mentorship

- Distributed organizations and teams
- Distributed Systems Architecture and Design

**Serena Sensini**

## Mentorship

- From DevOps to IT Architect
- Public speaking
- Scrivere #tech

**Valentina Alto**

## Mentorship

- Tech Writing - Getting Started

50% di sconto su tutti i corsi fino al 31/3 con coupon WEBDAY24
